SECTION 01

Brand Overview

Enerlytics is the energy data intelligence platform for the GCC's non-residential built environment. We turn fragmented utility data into live cost intelligence, helping building owners cut energy spend, comply with tariff reform, and operate smarter.

MISSION

Make every kilowatt-hour visible, accountable, and optimized.

VOICE

Direct. Technically precise.
No jargon. No blame language.

PROMISE

Smarter buildings. Lower costs. Real-time and verifiable.

TAGLINE

Smarter Buildings. Lower Costs.

SECTION 02

Logo System

Our logo combines an omega-arch symbol — representing electrical resistance and the building envelope — with a stylized two-tower skyline. Use the variation best suited to your space and background.

**Horizontal**

Primary lockup. Use whenever horizontal space allows.

**Icon Only**

For favicons, app tiles, social avatars, and reductive contexts.

**Stacked**

For square or vertical formats where the tagline adds value.

**Favicon / App Icon**

Reverse mark inside a navy rounded square. iOS/Android tile.

SECTION 03

Clear Space & Sizing

Always preserve a minimum exclusion zone equal to the height of the 'E' in the wordmark around all sides of the logo. Never let other elements cross this boundary.

X = HEIGHT OF 'E'

The exclusion zone (X) is measured from the top of the wordmark capital. All margins must equal or exceed X.

Minimum Sizes

MEDIUM	VARIANT	MIN. SIZE
Digital	Horizontal lockup	120 px wide
Digital	Icon only	32 px wide
Digital	Favicon	16 × 16 px
Print	Horizontal lockup	30 mm wide
Print	Icon only	8 mm wide

SECTION 04

Color Palette

Primary Navy and Accent Blue carry the brand. Success Green confirms positive outcomes (savings, system health). Neutrals carry hierarchy and structure.

Color Specifications

NAME	HEX	RGB	CMYK	USE
Primary Navy	#0A1330	RGB 10, 19, 48	CMYK 79, 60, 0, 81	Headlines, primary surfaces
Accent Blue	#2563EB	RGB 37, 99, 235	CMYK 84, 58, 0, 8	CTAs, links, accents
Success Green	#16A34A	RGB 22, 163, 74	CMYK 87, 0, 55, 36	Positive states, savings
Neutral Gray	#6B7280	RGB 107, 114, 128	CMYK 16, 11, 0, 50	Body text, dividers
Light Gray	#F3F4F6	RGB 243, 244, 246	CMYK 1, 1, 0, 4	Backgrounds, cards

SECTION 05

Typography

Satoshi is the Enerlytics typeface — a modern geometric sans designed for clarity across screens and print. Use Helvetica or Inter as fallbacks where Satoshi is unavailable.

SECTION 06

Iconography

Brand icons are line-based, drawn on a 100×100 grid with 3px strokes and rounded caps. Use Primary Navy on light backgrounds and white on dark.

**BUILDING**

Systems & equipment

**ENERGY**

Monitoring & efficiency

**COST DOWN**

Reduce cost, maximize savings

**OPTIMIZATION**

Improve operations

**INSIGHTS**

Construction Rules

- Drawn on a 100 × 100 px grid with 3 px stroke weight.
- Use rounded line caps and rounded line joins.
- Maintain 8 px minimum padding inside the grid.
- Single-color only — Primary Navy or pure White.
- Do not add gradients, shadows, or skeuomorphic effects.

SECTION 07

Dos & Don'ts

Consistent application is what makes a logo a brand. Follow these rules in every context — internal decks, customer materials, partner co-branding, and public web.

✓ DO

- Use the supplied logo files exclusively.
- Maintain the exclusion zone on all sides.
- Use Primary Navy on light or white backgrounds.
- Use the white version on dark or photographic backgrounds.
- Keep the logo at or above its minimum size.
- Pair the logo with brand-approved typefaces only.

✗ DON'T

- Do not stretch, skew, or distort the logo.
- Do not change the logo colors or apply gradients.
- Do not place the logo on low-contrast backgrounds.
- Do not add drop shadows, outlines, or 3D effects.
- Do not rearrange the symbol and wordmark.
- Do not recreate or redraw the logo from memory.

SECTION 08

Applications

The Enerlytics identity is designed for both light and dark interfaces. The product UI demonstrates the system in motion — paired with Accent Blue CTAs and Success Green confirmation states.
